

WORLD RABIES DAY 2023

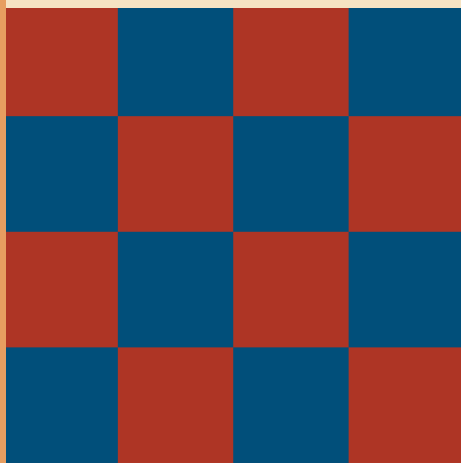

COMMUNICATIONS PLANS

This year's main focus

The primary focus of this year's World Rabies Day will remain on One Health. In addition, it will highlight the need for collaboration, the importance of equality, and the strengthening of overall health systems.

One Health is not for a select few but is rather something that should be available to everyone.

2023 Theme Banner

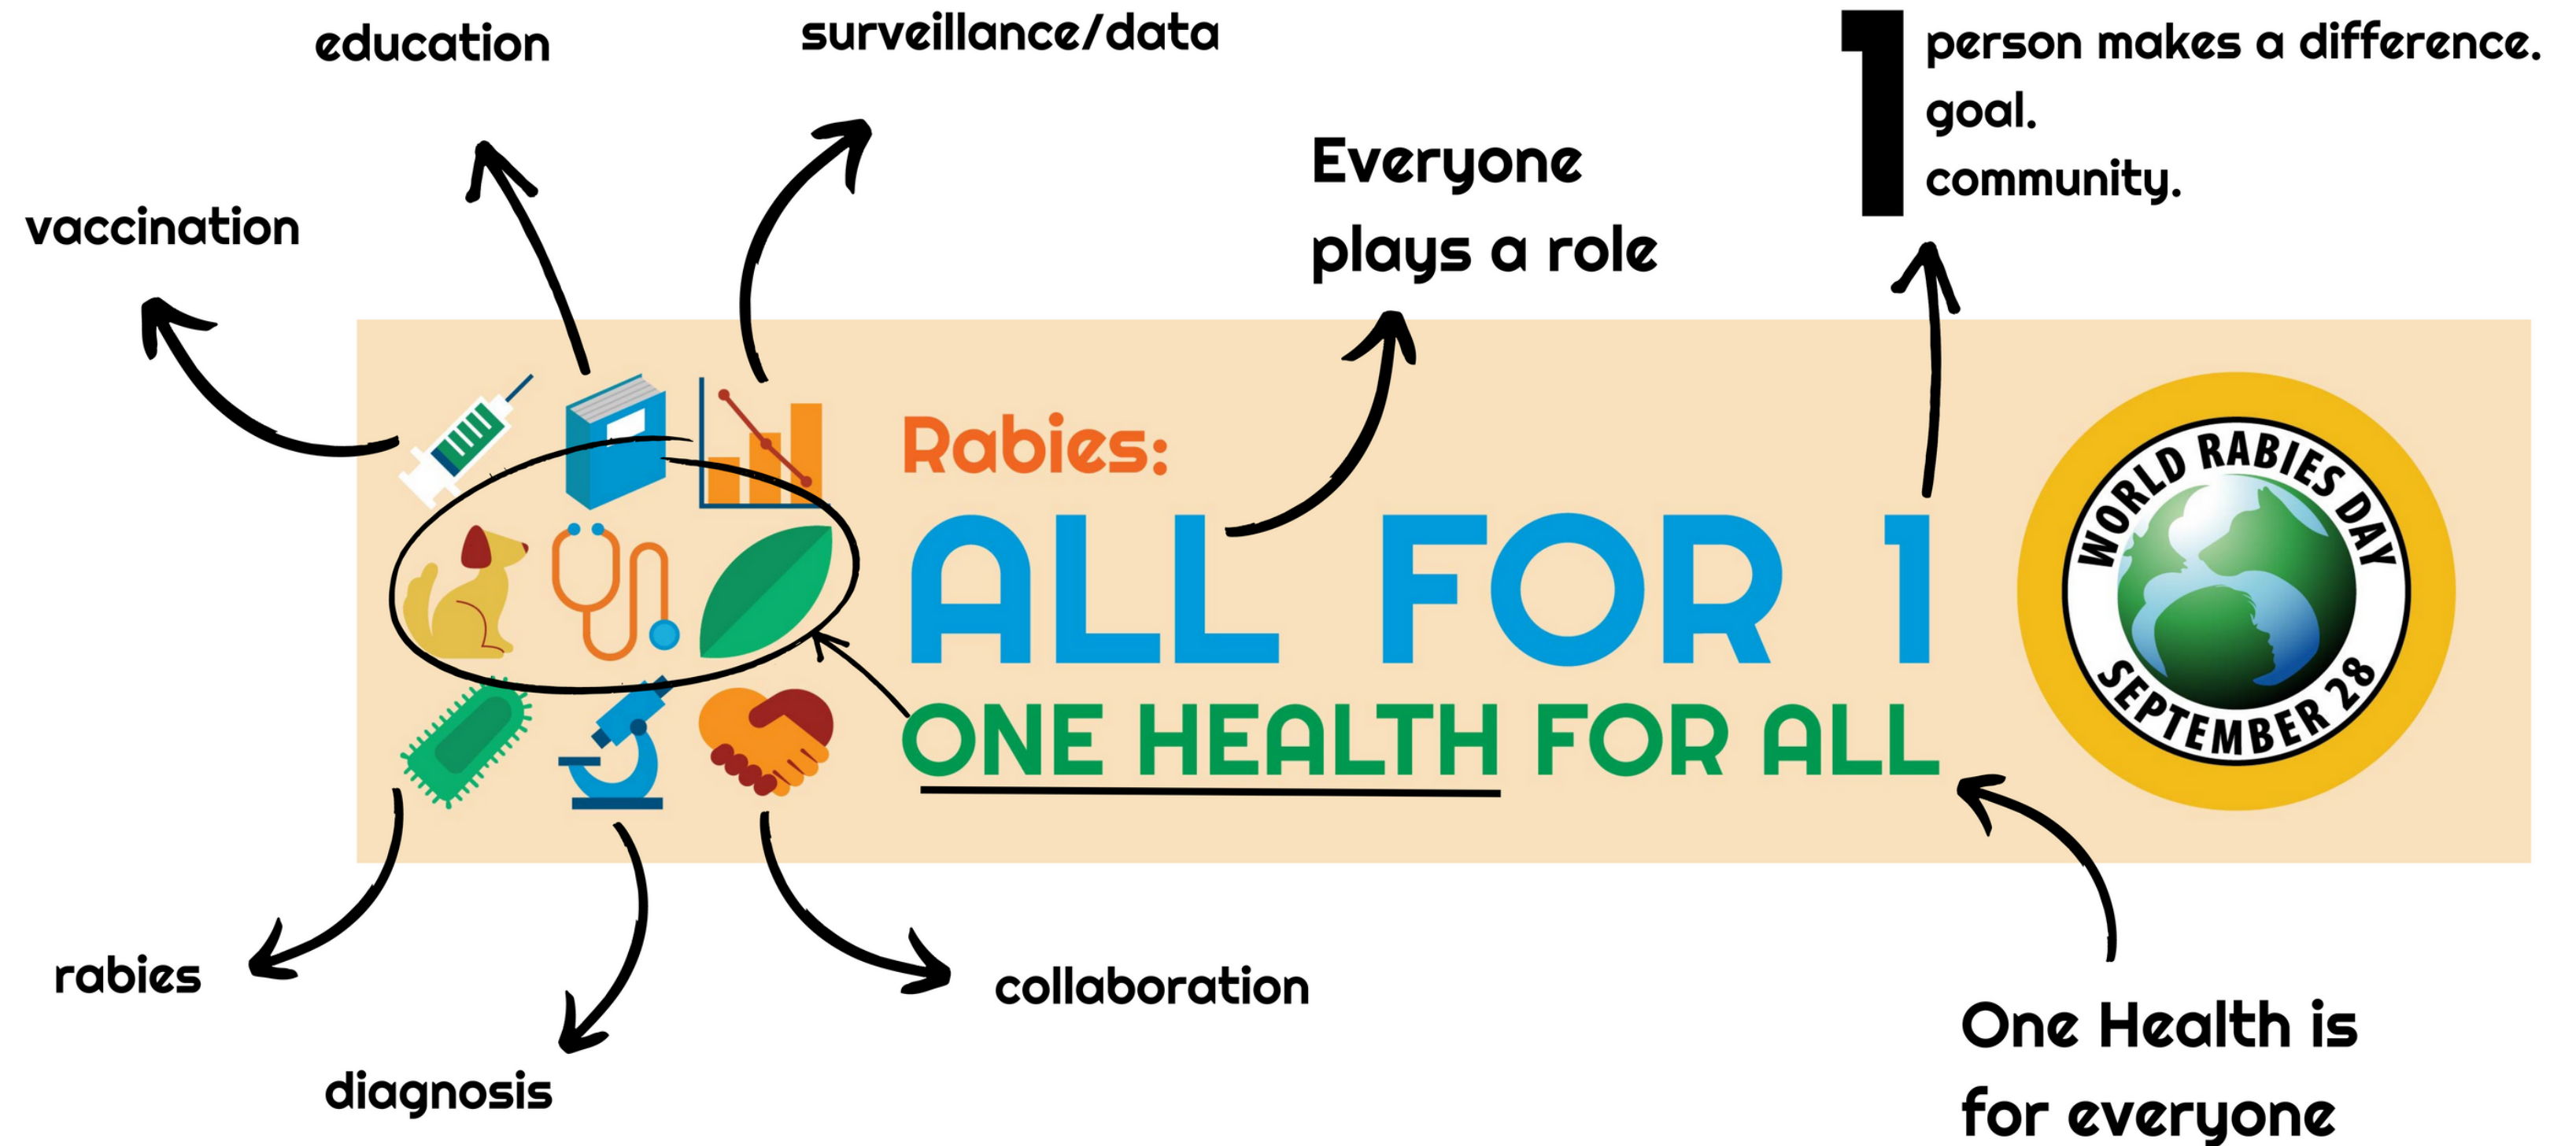

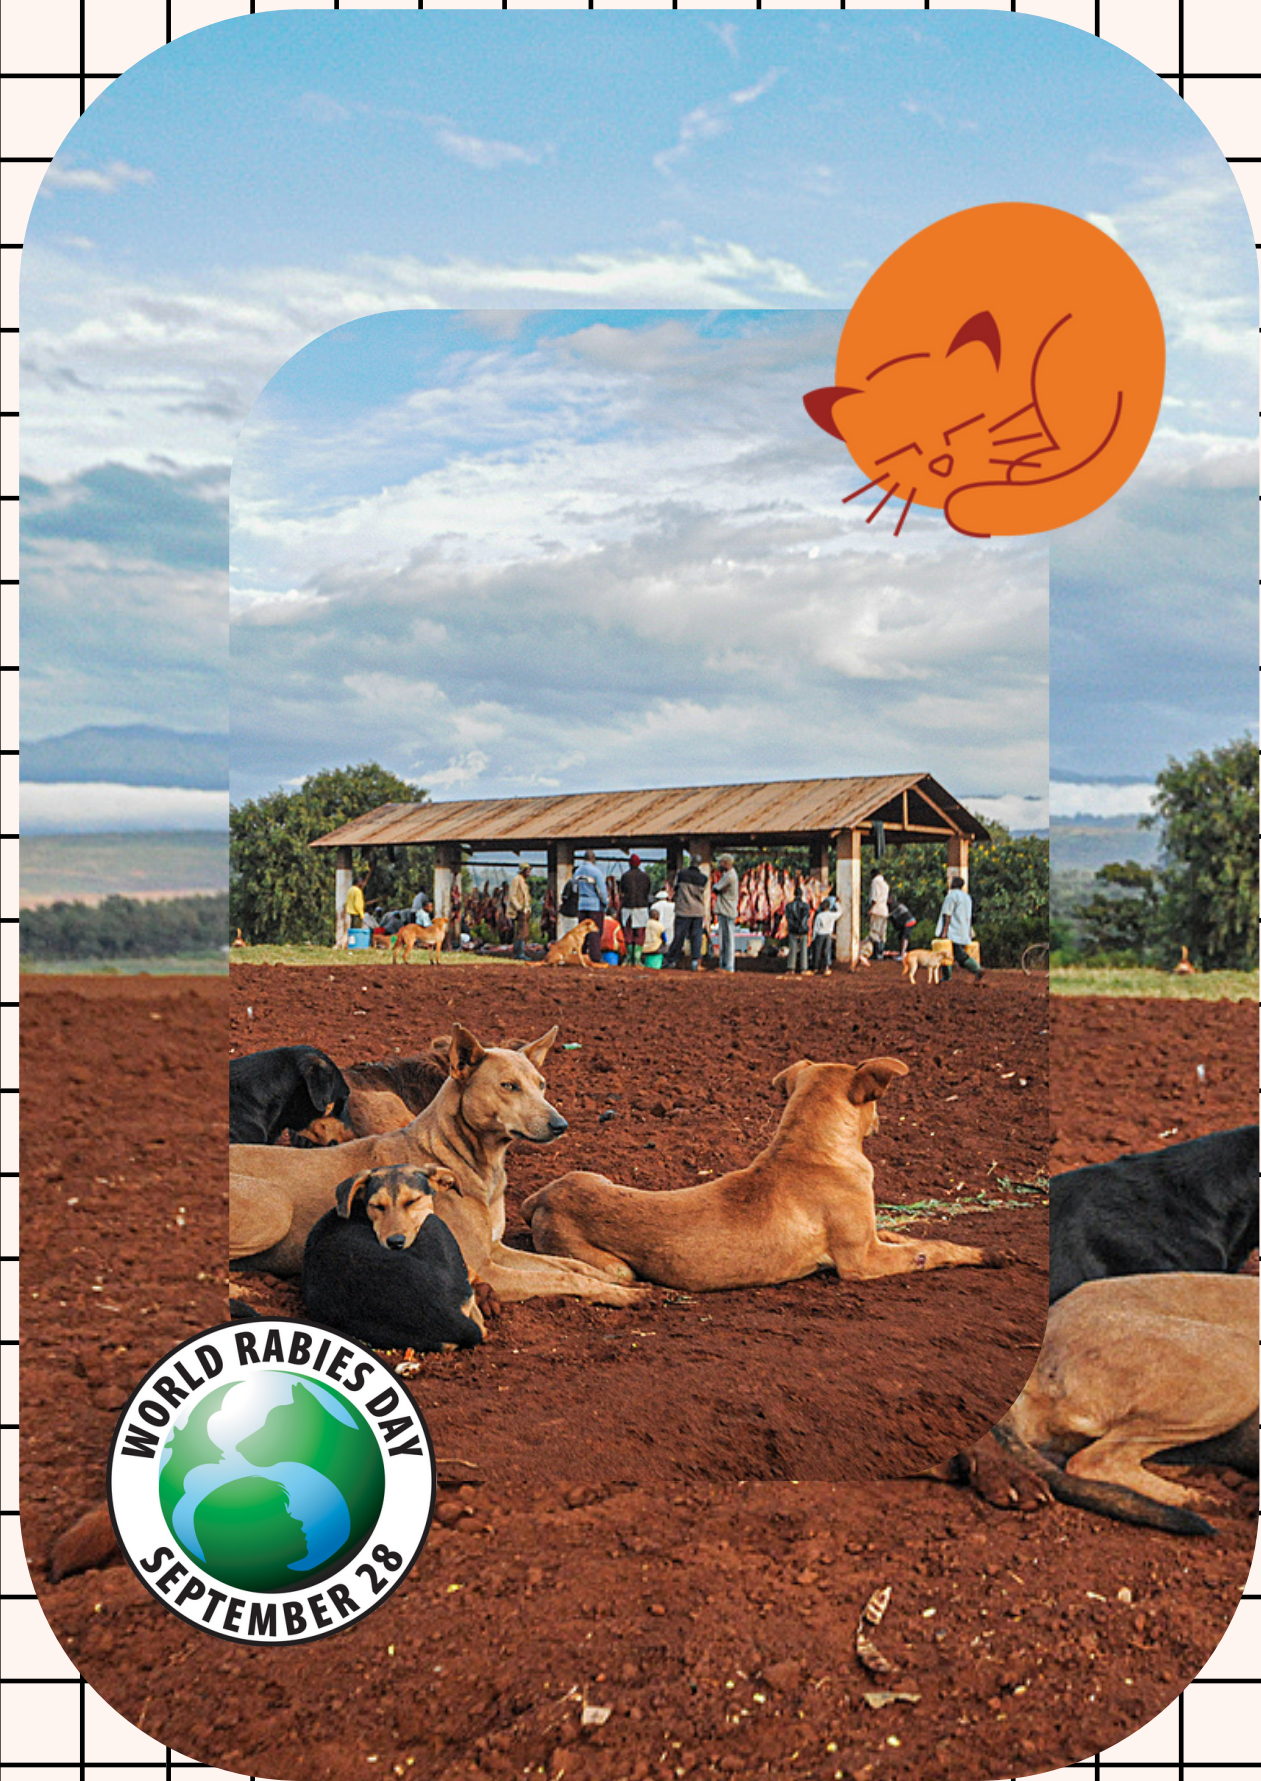

Rabies:

ALL FOR 1
ONE HEALTH FOR ALL

2023 Theme Banner

DESIGN

Theme

flexible and adaptable; balance of professional and informal

Themed banner designs #WorldRabiesDay

May-August

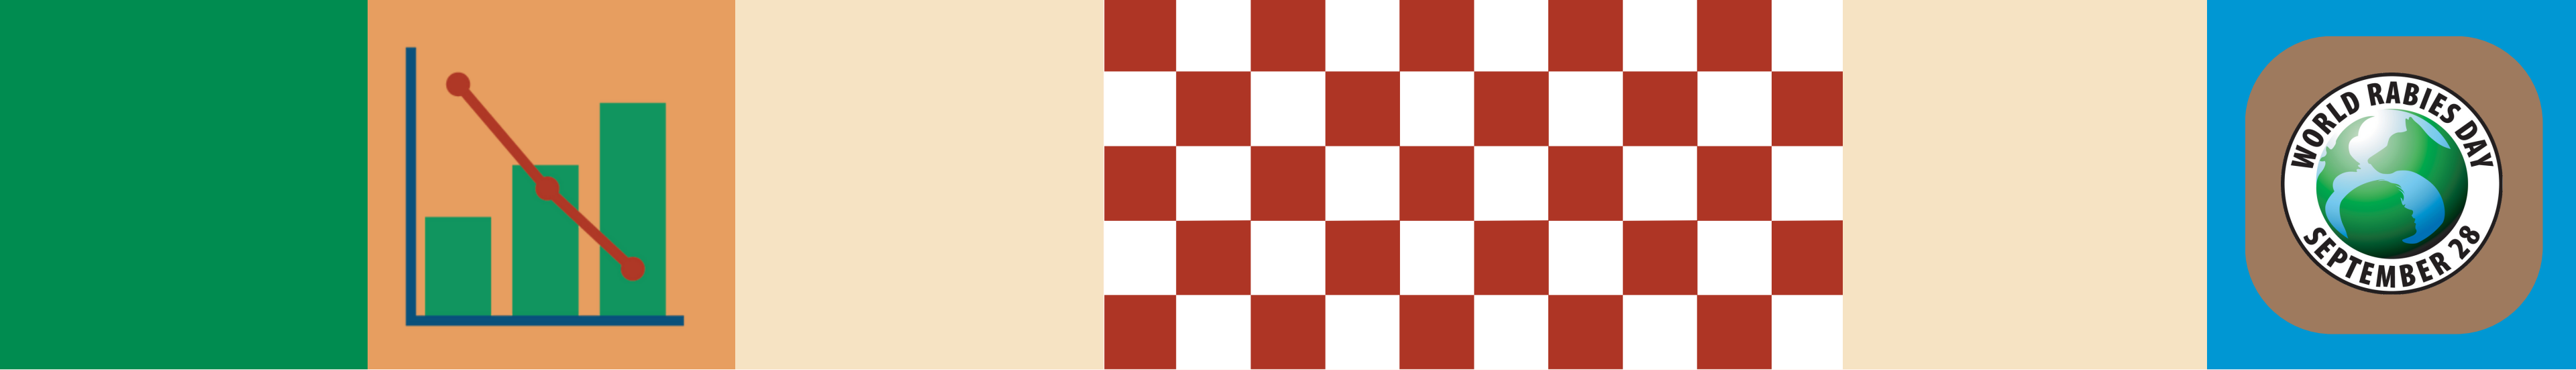

These months provide the essential time to build engagement around World Rabies Day and the theme as well as to properly explain and illustrate all aspects leading to this year's concept.

Monthly Focus

| MAY | JUNE | JULY | AUGUST | SEPTEMBER |
|---|---|--|---|--|
| <p>focus on the environment, including (but not limited to) social and cultural practices towards dogs and rabies, as well as the effects that the spread of rabies can have on it.</p> | <p>focus on humans, how rabies can be prevented, how it affects society as a whole and celebrating the people working against it.</p> | <p>focus on animals, and the role of animal health in rabies prevention and elimination. Preventing transmission in other animals (especially endangered species) is also important.</p> | <p>focus on collaboration and engaging communities worldwide in all aspects of World Rabies Day (events, awards, articles, social and conventional media outreach, etc.)</p> | <p>focus on inclusion and strengthening overall health systems so One Health is a given right of everyone, rather than a privilege of a few.</p> |
